ABOUT

I have a passion for innovation and challenging projects. My background in industrial design gives me a rare insight into how people use things in their daily lives. Whether it means sketching out a solution to a complex problem, or offering unique perspective on user experience, I can offer something different to your digital experiences. My name is Jeremy Bunting, and I'm eager to work with you to make your projects shine.

EDUCATION

Wentworth Institute of Technology, Boston, MA - Bachelor of Science Degree in Industrial Design (BIND) 2006, Dean's List

EXPERIENCE

Technical Director, Spinifex Group.; Torrance, California · May 2016 - Present

- Led team of mobile, front-end and back-end developers across development of live event projects
- Promoted dev-ops best practices, assisted in migration to AWS, developed Linux services for LTE hardware
- Migrated legacy apps to new Electron tablet application architecture
- Developed internal tooling in Node, developed Node modules for Electron applications
- Worked closely with product management team to scope projects, timelines and budgets
- Clients included Lexus, Acura, Honda, Toyota, Mazda and Cisco

Associate Technology Director, Deutsch LA.; Los Angeles, California · Nov. 2012 - April 2016

- Led and mentored front-end and back-end development teams of up to 10 people
- Provisioned, configured, automated deployments to Linux environments via Ansible & Docker
- Defined and wrote technical specs & estimated timelines for agency clients and internal projects
- Implemented CI/CD workflow & improved development toolset for campaign related projects
- Clients included Target, Volkswagen, Pizza Hut, Esurance and Real California Milk

Sr. Interactive Developer, HYFN.; Hermosa Beach, California · Nov. 2010 - Oct. 2012

- Developed branded web apps for music and movie industry clients
- Implemented loosely coupled application architecture to maximize logic re-use across clients with MVCS pattern
- Built an embeddable video player for CBS complete with pre-roll and interstitial ad integration
- Clients included Disney, Wendy's, Nokia, Taylor Swift, VW, CBS, The Oscars, Avon, Adobe and Microsoft

Interactive Developer, JUXT Interactive.; Newport Beach, California · Aug. 2008 - Oct. 2010

- Developed highly animated micro-sites with a pioneer of the interactive advertising industry
- Specialized in animation techniques, 3D, real-time, video and mobile
- Prototyped with emerging technologies, participated in vendor mobile beta programs
- Clients included Coca-Cola, Sprite, Cisco, Qualcomm and Home Depot

Interactive Developer, mediaBOOM.; Guilford, Connecticut · Jan. 2007 - Sept. 2008

- Designed and developed websites for an award winning interactive agency
- Developed animated data driven applications and websites for clients
- Clients included Four Seasons Hotels, Goodwin Procter, Ronin Advertising, Prospect Denim and 38Studios

Industrial Design Co op, Calphalon Cookware Inc.; Toledo, Ohio · 2006

- Researched, designed, developed, prototyped and patented the Calphalon Pro Signature line for Kohl's
- Built and presented new product design concepts through sketching, rendering, modelmaking, and prototyping

Industrial Design Co op, Proteus Design Inc.; Boston, MA · 2005

- Practiced all stages of the consumer product development process, research, sketching, modelmaking and prototyping
- Prototyped new products for Keurig Coffee, Stanley and Intermatic
